4th International Conference on Steel and Composite Structures

CICOMM'25

Algiers, October 26-27, 2025

ORGANIZED BY

**ECOLE NATIONALE
POLYTECHNIQUE
(ENP, ALGIERS)**

IN COLLABORATION WITH:

**University of Clermont Auvergne,
Clermont-Ferrand, France**

**Abou Bekr Belkaid University,
Tlemcen, Algeria**

**National Center for Integrated
Studies and Research in Building,
Algeria**

OBJECTIVES OF THE INTERNATIONAL CONFERENCE

The use of steel in the construction sector, whether as a primary material or in combination with others, is undergoing constant evolution. Its mechanical properties and ease of implementation make it a popular choice. It effectively meets the expectations of architects by adapting to complex structures and large spans. This evolution, combined with advancements in manufacturing techniques, calculation methods, and environmental imperatives, promotes a more considered use of steel in construction. To meet the ever-increasing demands for structural performance, a thorough understanding of the behaviour of the material, elements, assemblies, and structures is essential.

In this context, the École Nationale Polytechnique (ENP, Algiers), in collaboration with institutions such as the University of Clermont Auvergne, the University of Tlemcen, and CNERIB, is organising the fourth edition of the International Conference on Steel and Composite Structures (CICOMM'25). This initiative intends to provide cutting-edge research in the field of steel and composite construction, both in Algeria and worldwide. This edition follows previous events held respectively at the University of Tlemcen (2015), at USTHB in Algiers (2018), and at USTO-MB (2023).

The CICOMM'25 conference aims to bring together specialists in the field, whether they come from academia, industry, or training sectors. It will highlight all aspects of metal construction, from design to implementation, integrating issues related to control, sustainable development, material reusability, and modular construction. This event will provide an opportunity to assess the technological and scientific advancements both in Algeria and globally regarding the use of metal in various construction sectors, particularly in buildings and civil engineering works.

THEMES OF THE INTERNATIONAL CONFERENCE

The themes, established by the scientific committee, that will be the subject of proposed communications during the conference will focus on the following axes:

- Axis 1:** Stability of Structures and Cold-Formed Profiles
- Axis 2:** Connections
- Axis 3:** Steel Composites (Steel-Concrete, Steel-Wood, Steel...)
- Axis 4:** Behaviour in Extreme Conditions (Fire, Earthquake, ...)
- Axis 5:** Industrial Structures and Bridges
- Axis 6:** Sustainable Development (Energy, Reuse, Environment, Rehabilitation, ...)
- Axis 7:** Architecture and Non-structural Material and Facades
- Axis 8:** Steel Construction and Innovative Technologies (BIM, Automated Design, AI)
- Axis 9:** Training and Teaching in steel and composite structures

PRESENTATION OF ARTICLES

It is important to adhere to the following guidelines:

You must submit via the following link: <https://docs.google.com/forms/d/1Xx7iXUNRZarB8g88wApOuuyZu3qdXhph5FsfuOFw9o8/preview>

- An abstract of 300 words of the communication for the printed version of the conference proceedings.
- The actual text of the communication (maximum 10 pages) for the electronic version.

The communications must follow the format of the template downloadable from the CICOMM'25 conference website :

<https://gciv.enp.edu.dz/index.php/cicomm-2025/>

The best communications will be selected, and their authors will be invited to submit them for publication in the journal Construction Métallique (published by CTICM), Engineering Science Journal (published by ENP) or Algérie Equipement (published by ENSTP).

The selected submissions will undergo the standard review process.

- Languages: French and English.

Notification of Abstract Acceptance: ~~June 15, 2025~~ **July 15, 2025**

Deadline for Submission of Communications: ~~July 31, 2025~~ **August 31, 2025**

International Conference CICOMM'25: **October 26-27, 2025**

REGISTRATION FEES

The participation fees for the CICOMM'25 conference, payable on the day of the conference, include: accommodation, coffee breaks, lunches, and conference proceedings.

- Communicating Teacher-Researcher: 15,000 DZD

- Non-Communicating Teacher-Researcher: 10,000 DZD

- Communicating Student: 8,000 DZD

- Industrial and Professional: 25,000 DZD

- Foreign participants: €200

PRIZE FOR YOUNG RESEARCHER

A prize for young researchers will be awarded for the best presentation (oral or poster). This prize is reserved for PhD students. Students interested in this competition must indicate it on the registration form and attach proof of their PhD student status.
